## **ENVIRONMENTAL POLICY**

Arnold is a leading electrical contractor with over 50 years' experience in construction, maintenance, and de-construction of electrical, data, instrumentation, and air-conditioning installations and switchboards for the commercial, industrial, and mining sectors.

Arnold is committed to minimising our impact of our activities on the environment. Our objective is to maintain a culture and management system which minimises impact on the environment through the provision of visible leadership, resources, processes, education and a demonstrated commitment to this policy.

To achieve this objective, we shall:

- Ensure risks and opportunities that have the potential to affect our environmental performance are identified and addressed
- promote a culture in which all employees, subcontractors and business partners share this commitment
- provide and maintain an environmental management system where aspects and associated risks are identified and effectively controlled
- set targets, monitor and review performance and ensure continual improvement including staying informed on emerging climate change best practices
- responsibly manage emissions to the air, water and land, and the use of energy, water and raw materials, achieved through:
  - seeking opportunities to improve energy efficiency, increased usage of renewable energy sources and effective fleet management
  - promoting the reduction of waste through reuse and recycling and dispose of wastes in a safe and responsible manner
- provide competent supervision, education, instruction and information to all personnel to assist in meeting our environmental obligations
- comply with relevant environmental legislation and other requirements including AS/NZS 14001

We are all responsible for respecting and protecting the environment to achieve an environmental performance of which we can be proud.

Tony Arnold **Managing Director**
